

2025 Cornell High-Cannabinoid *Cannabis sativa* Field Day

Wednesday, September 10, 2025, 8:30 am - 6:00 pm
Cornell AgriTech, Geneva, NY

\$35 per person, includes lunch. Pre-registration required by September 1st

The Cornell *Cannabis sativa* L. Field Day is a learning event featuring interactive workshops, demonstrations, and panel discussions on the latest industry advancements for New York growers and other stakeholders. Topics include:

- controlled environmental agriculture
- soil health and composting
- disease management and tissue culture
- genetics of color and minor cannabinoids
- post-harvest, drying, and curing
- USDA field updates
- NYS OCM Updates

Field day will happen rain or shine!

Prepare for the weather and outdoor walking.

No consumption of cannabis products on campus
